Extract from UNESCO Newsletter

**WHY WE NEED a NEW VISION
in view of a MUCH DEEPER
TRANSFORMATION
of the ROMANIAN
EDUCATIONAL SYSTEM?**

Increasing economic & social
polarisation of citizens

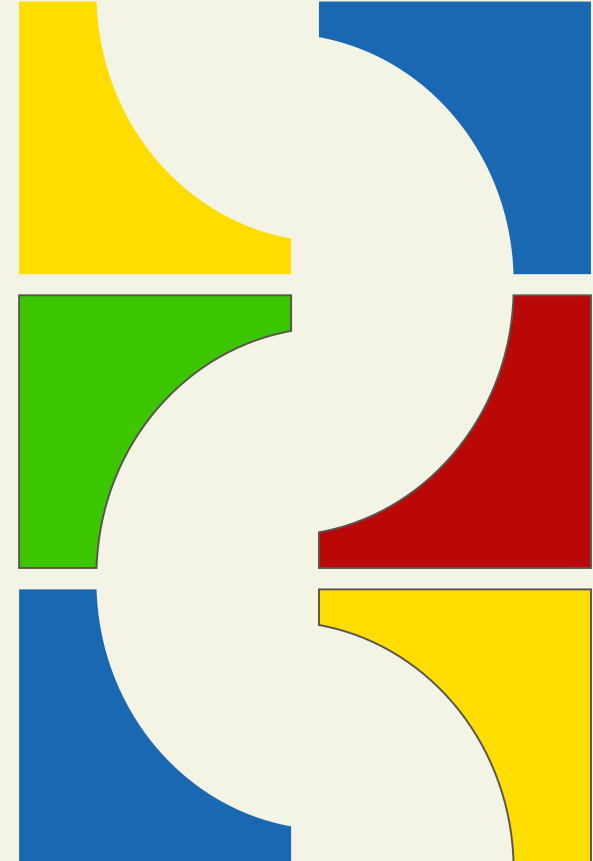

Argentinian type of leadership
conducting to a divided society
and poverty, including children
and young people

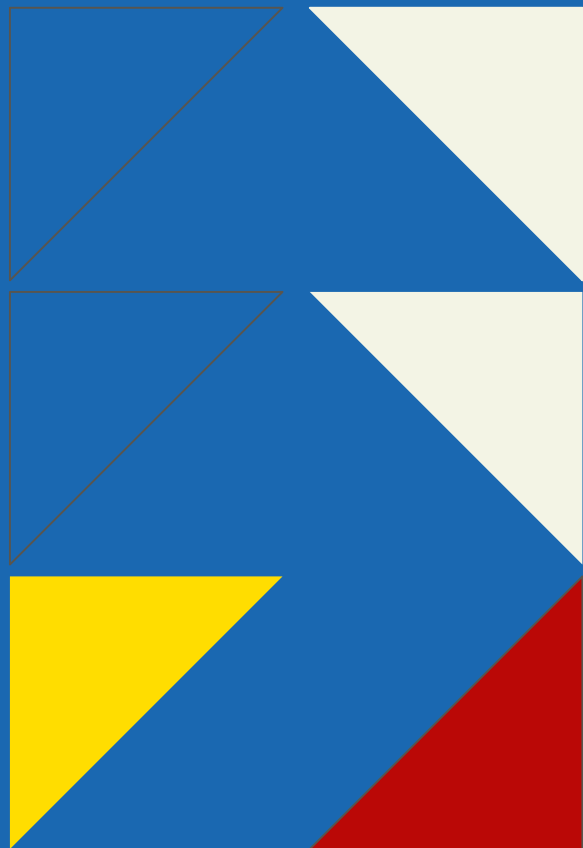

**WHY WE NEED a NEW VISION
in view of a MUCH DEEPER
TRANSFORMATION
of the ROMANIAN
EDUCATIONAL SYSTEM?**

Inadequate adaptation of formal
curricula in most types of schools
to the real needs and general
expectation

NO INTEREST FOR LEARNING,
READING, KNOWLEDGE

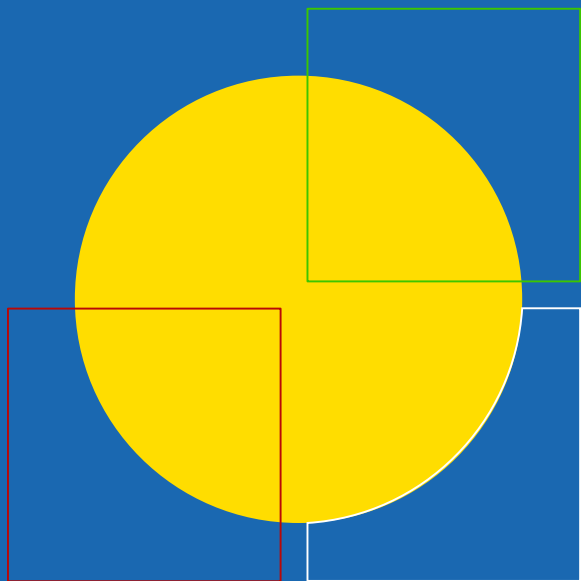

WHY WE NEED a NEW VISION in view of a MUCH DEEPER TRANSFORMATION of the ROMANIAN EDUCATIONAL SYSTEM?

Lack of a minimal ethical
mindset and consensus on major
priorities between main
protagonists and beneficiaries

Decisional Entropy at all levels,
including the Ministry of
Education and the Ministry of
Research, or other similar
authorities (ARACIS, ANFP, INA)

WHY WE NEED a NEW VISION in view of a MUCH DEEPER TRANSFORMATION of the ROMANIAN EDUCATIONAL SYSTEM?

Brutal reverse of the hierarchies of
competences and societal values

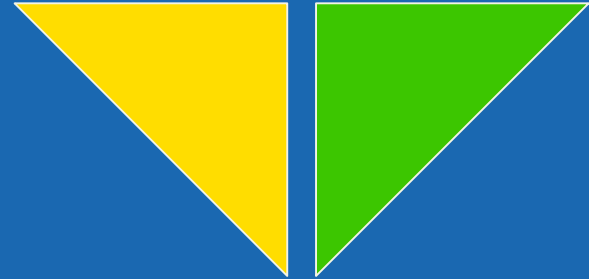

A lower interest for academic
integrity and reputation,
innovation standards
and related incentives

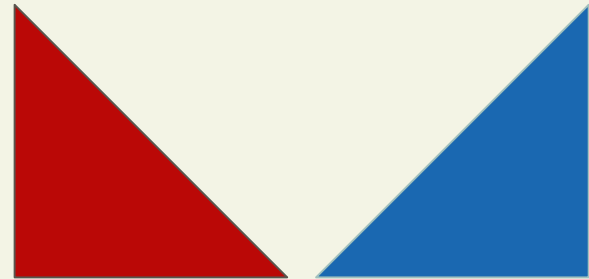

Old fashioned, quantitative and
formalistic approach concerning
the entire educational process

WHY WE NEED a NEW VISION in view of a MUCH DEEPER TRANSFORMATION of the ROMANIAN EDUCATIONAL SYSTEM?

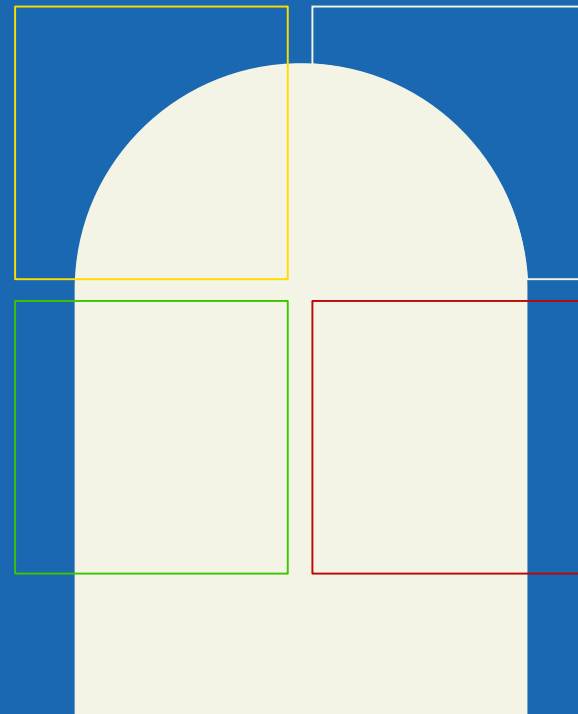

Disconnection or an unfunctional coordination of the **Business** environment – **Labour Market** and their appointed HR Managers – the **educational**, research or vocational schools and centers.

WHY WE NEED a NEW VISION in view of a MUCH DEEPER TRANSFORMATION of the ROMANIAN EDUCATIONAL SYSTEM?

No involvement or understanding of
most of the decision makers concerning
the role and financing of the **research**
and the **pro-entrepreneurial education**

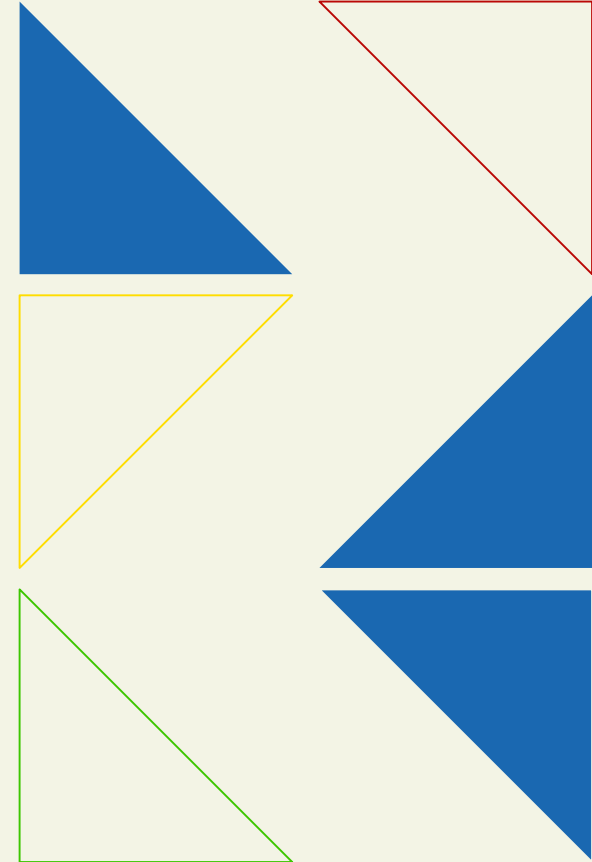

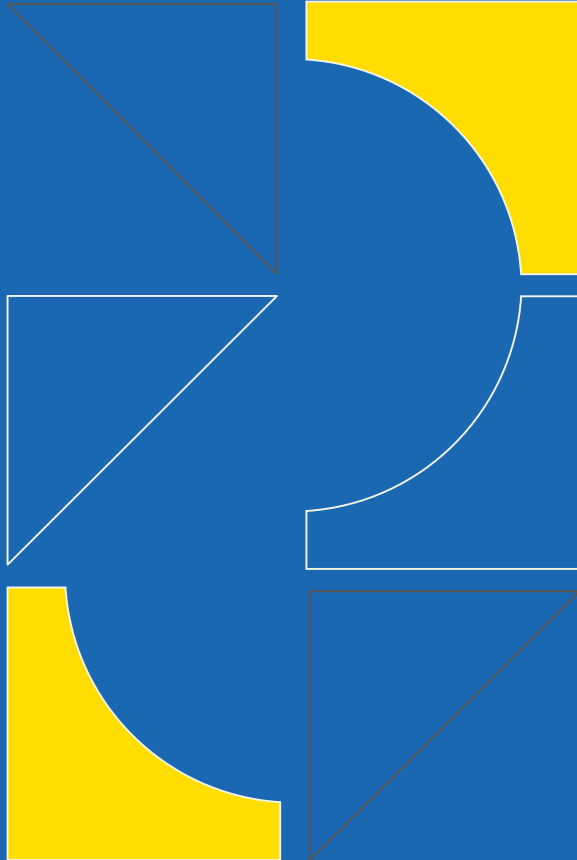

**WHY such an increasing focus on
TRANSVERSAL COMPETENCES /
TRANSFERABLE SKILLS
within the current and future labour
market and HR selection process?**

Romania also strongly needs
a new type of citizen, not only of consumer!!

HOW it could be attained:

- global citizenship competence;
- critical inquiry;
- training the Emotional Intelligence (EQ) of teams.

According to

"Sophiology - A paradigm of the destiny"

by Prof. Mihai E. ȘERBAN,

excepting the fundamental specialisations,
there is a key set of ***secondary specialisations***:

- domination over others
 - saving up
- social contracts
- physical exercise
 - combating comodification trends
 - family life-style
- individual autonomy
- revenge
- the need for order
- civic spirit
 - Individual belonging and gratefulness

UNESCO Global Network of Learning Cities

What is the UNESCO Global Network of Learning Cities (GNLC)?

The UNESCO Global Network of Learning Cities is an international policy-oriented network providing inspiration, know-how and best practice. Learning cities at all stages of development can benefit greatly from sharing ideas with other cities, as solutions for issues that arise as one learning city develops may already exist in other cities. The Network supports the achievement of all seventeen Sustainable Development Goals (SDGs).
